1. The BRYANSK (34°22'E/53°14'N) airfield, Bryansk Oblast, has been occupied by jet fighters since April or May 1949.

2. Description of aircraft: Swept back wings, rounded wing tips, one jet power plant, air intake in nose of fuselage, air exhaust at tail.

Comment:

25X1

According to many reports, the field has been occupied by jet fighters since the Fall of 1948. It is probable that the swept-back aircraft types have arrived since the Spring of 1949. This report may be considered as confirmation for this assumption.
